My English teacher

My English teacher is David. He is tall, good-looking and quite friendly. I think he is about thirty-five years old. He lives in an old house in the middle of the city with his wife and three children. He has three sons. Two of them go to school, but the third son is only a baby and stays at home with David's wife Sue. The students in my class like David because he is funny and his lessons are always interesting. He is telling us about life in England right now. I am not very good at English but I really like it and I like my teacher, David.

The way to walk

In the US and Canada, automobiles drive on the right. People walk on the right in both countries, too.

In England and Japan, automobiles drive on the left. In Japan, people walk on the left, but not in England. In England, people don't follow any rules. They walk on either side at any time. If you travel there, watch out!

To be a volunteer

Anyone can be a volunteer. It doesn't matter how old you are. It's a great way to help others.

There are many ways to volunteer. You can help at a library or a school. Or, you can stay with the old people and sing a song for them.

Many school boys and girls are working in volunteering groups. It only takes a little time each week. In return, you can get many big smiles and thanks.

Are you ready to be a volunteer? Do it right now! The Earth will be full of love.

Water is important

Water is very important to us. If a person goes without water for three days, he will die. We also use water for watering flowers, swimming, washing and doing many different things. We need a lot of water every day.

Many people don't know how much water the human body needs to work well, and many people do not drink enough, even in hot weather. Our bodies are mostly water. If we do not drink enough water, we will feel tired and may even get ill. Water is really important to us!
